

Wake Me When It's Over

Aviators

Think I need to bleed to heal it
Think I wanna start by feeling
Human
To keep on moving
In it for the absolution
Safety from the persecution
Out there
Beneath the nightmare

So wake me when it's over
When high above
The morning sun arrives unbroken
No more final words are spoken
Anymore
Don't listen to the screaming
The night is long, and
Fire won't scare the monsters sober
Promise me
You will wake me when it's over

Tempt me with the purest fire
Kill me with the blood's desire
To break the seal
So nothing's real
Take me where the blood runs colder
Wake me when the dream is over
Or let me go
Into the depths below

So wake me when it's over
When high above
The morning sun arrives unbroken
No more final words are spoken anymore
Don't listen to the screaming
The night is long and
Fire won't scare the monsters sober
Promise me
You will wake me when it's over

(You will wake me when it's over)

Fear the blood
Fear the beast
For the hunt
They will feast, and they're feasting
On whatever's left after sinners confess
And the kindling ignites on the darkest of nights
To the moon
To redeem
It's the stench
It's the screams, and I'm fighting
A rush and a torrent of blood and abhorrence
When I can't wake up from this dream

So wake me when it's over
When high above
The morning sun arrives unbroken

No more final words are spoken anymore
Don't listen to the screaming
The night is long and
Fire won't scare the monsters sober
Promise me you will wake me when it's over

(You will wake me when it's over)
(You will wake me when it's over)
