Cannivegan Corpse

Avulsed

Never eat meat, nothing that was previously alive or coming from it

Where have you seen a living dead guy still with principles even after death

His conscience was so fucking deep that he couldn't feed of human meat like any other typical zombie He would devour just human vegans

Cannivegan Corpse Cannivegan Corpse Cannivegan Corpse

Feeding on vegan meat, was not a sin
That kind of protein, is unadultered
This is the nearest way, to keep veganism
On this hard state, where one has to eat human flesh
