

Foolish Deception

Axe

You say that I'm the only one for you
And I want you to know I feel the same
All that I am is in your hands
But there's somethin' I just don't understand

'Cause it's a foolish deception
Thinkin' two wrongs can make it right
Movin' in the wrong direction
Ain't gonna get us through the night
(Get us through the night)
Baby, how long we gon' keep hidin'
From the light of what we already have?

The names that we wrote in the book of love
Have grown faded and worn along the way
Our love was built on solid ground
Better stop before we both tear it down

'Cause, honey, what a foolish deception
Thinkin' two wrongs can make it right
Movin' in the wrong direction
Ain't gonna get us through the night
(Get us through the night)
Baby, how long we gon' keep hidin'
From the light of what we already have?

It's a foolish deception
Thinkin' two wrongs can make it right
Movin' in the wrong direction
Ain't gonna get us through the night
(Get us through the night)
Baby, how long we gon' keep hidin'
From the light of what we already have?

It's a foolish deception
Thinkin' two wrongs can make it right
Movin' in the wrong direction
Ain't gonna get us through the night
(Get us through the night)
Baby, how long we gon' keep hidin'
From the light of what we already have, we already have?
