

## For a Little While

Axe

I can't ask you to wait forever  
What I feel inside  
Won't make no sense to you  
I am holdin' on  
And things are looking better  
If you want to leave  
I just can't let you go  
I put too many years  
Of my life into you  
To be throwin' it all away  
And there's too many nights  
I can't sleep without you  
Can't we go on just the same  
For a little while  
For a little while...  
I am working hard  
Waiting for tomorrow  
And no one knows  
What an other day will bring  
I still love you  
In spite of all the sorrow  
Why you want to leave  
Is a mystery to me  
I put too many years  
Of my life into you  
To be throwin' it all away  
And there's too many nights  
I can't sleep without you  
Can't we go on just the same  
For a little while  
For a little while...
