

# This Time

Axwell & Ingrosso

This time  
This time  
We can't go home  
This time  
This time  
We can't go home  
This time  
This time  
We can't go home  
This time  
This time we can't go...

This time  
This time we can't go home

This time, this time we can't go home  
I can hang my hat anywhere  
I can start, I could finish here  
It's the spark of a millionaire  
Remind yourself, it's like magic  
It's not average, it's more tragic  
More tribal, more savage  
In a world where you're surrounded by the plastic  
Free your mind and just lose it  
No test drive, just do it  
This murder is so accidental  
Us building is so monumental  
Got me in my zone  
Had to build my own  
That put me in my throne  
But this time  
This time we can't go home

This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home

This time  
This time we can't go...

This time  
This time we can't go...

This time we can't go home  
This time we can't go home  
This time we can't go home

This time  
This time we can't go...

This time we can't go home  
This time we can't go home  
This time

This time we can't go home  
This time we can't go home
