Dreaming - dreaming in the cold night I wish I were a big and famous star Then I'm the king of a thousand queens With golden rings and dirty jeans Pots of money and I'm feeling free Move your legs- Stamp your feet Hear my voice you're gonna rock with me The rhythm leads The rhythm beats Feel the beat and find another world Chorus Allright - allright I've got the kingdom of the night Screaming -screaming in the wild crowd Let me see you all raise your hands I wanna dream - dream forever Never waking up - No, never Oh, bring back this dream And let us scream again Move your legs- Stamp your feet Hear my voice you're gonna rock with me The rhythm leads The rhythm beats Feel the beat and find another world Chorus Allright - allright I've got the kingdom of the night
