

## Black Lucia

Aztec Camera

People say that all I do  
Is talk about you  
But that's not true  
I talk about you  
Think about you  
Dream about you  
Can't live without you  
It's just not true.  
I can almost feel the sunshine  
When black lucia led the white parade  
Let me always be the one who's left behind  
When they desert you.

She's not your blue eyed girl  
No diamond calling  
She's a darkened sky  
A crystal light  
When the day runs dry  
And the rain is falling  
Black lucia led me into night.

I never thought that I could ever be the same  
Until I met you  
I thought my time had been arranged  
Times have changed  
Since you came  
I miss you  
I can almost feel the sunshine  
When black lucia led the white parade  
Let me always be the one who's left behind  
When they desert you.

She's not your blue eyed girl  
No diamond calling  
She's a darkened sky  
A crystal light  
When the day runs dry  
And rain is falling  
Black lucia lead me into night.
