

On and On Again

Azure Ray

There was wonder underneath the quilted sky
Did we stand too close to see the seams at night

Can we keep it light
Constant hands of time
Creeping in too soon

I counted thirty seven signs
It's probably just my mind
What it likes to do

Were they out there
Were they out there

And if I could give this a shot
Could you a safe to place our trust into

We were their dumbs of bad bad timing
All these reminders like the pink sun rising

Can we keep it light
Constant hands of time
Creeping in too soon

I counted thirty seven signs
It's probably just my mind
What it likes to do

Were they out there
Were they out there

And if I could give this a shot
Could you a safe to place our trust into

Cause I have been lied to
And I have been made a fool
And I would give this a shot
If you would too
If you would too

And I'll go on and on again
On and on again
On and on and on

And I'll go on and on again
On and on again
On and on and on

And I'll go on and on again
On and on again
On and on and on

And I'll go on and on again
On and on again
On and on and on
