

Today I'll crawl out of bed
I can't stand your shadow is too heavy to lift
Maybe we'll go for a ride
You said you'd take me nowhere
I said that suits me just fine
I know you've always been near
Whispering secrets
I know I'm not supposed to hear
Hold your heart with two hands
Give it to me
Only to disappear

And look how low I've sunk
Don't ask me to rise
I'll lose you when I'm high
Hey, look how low I've sunk
Don't ask me to rise
I'll only lose you when I'm
High...

All alone in the dark
Love survives
Only when we are apart
Your voice still stands in my ears
Soft explosions blossom
With the beat of my heart

And look how low I've sunk
Don't ask me to rise
I'll lose you when I'm high
Hey, look how low I've sunk
Don't ask me to rise
I'll only lose you when I'm
High.....
High.....

Hey look how low I've sunk
Don't ask me to rise
I lost you when I was
High
And look
