Doctor God, Doctor God Won't you give me an appointment Been so long since I've had a check up Can you squeeze me in today?

Doctor God, oh Doctor God
I know there's a long line waiting
Emergency situation
And I need you
Doctor God

Now I have come to seek the prophet, yeah Ohhh
Can you tell me is he in today

Show me to the man with the healing hands And tell him to come and take me by my hand Don't you know I need, I need the Doctor, Right away

Doctor God, Doctor God
Can you forgive me for the way I've been living
Taking more than giving
I'm just tired of living this way

Doctor God, Oh Doctor God Show me that road to salvation And lead me away from temptation And close the door to hate Ohhhhh, Doctor God
