

# I've Been Down This Road Before

B.J. Thomas

I've been down this road before  
I've felt like this somewhere before  
I've felt the warm hand  
Turn cold  
Yes I've been down that road before

I've walked along this road somewhere  
I learned a lot then and there  
I know a smile can turn into a frown  
I've been down that road before

I missed a lot of chances  
Along the way  
And I've seen a green light  
Turn to red  
Take the time  
To read the detour sign  
It's a heavy toll to pay

Empty feelings left to bare  
I reached for you but you weren't there  
Time stood still  
With darkness at my door  
Yes I've been down that road before  
Yes I've been down that road before  
Yes I've been down that road before
