

# Shine On

B.J. Thomas

Light the fire  
Hold it higher  
There's a world that wants so much to see  
And in the night  
You're alive  
Go on and be what you were meant to be

Go ahead and shine on  
In the night  
You gotta shine on  
Be a light  
You need to shine on  
How the world could use some light

Go ahead and shine on  
In the night  
You gotta shine on  
Be a light  
You need to shine on  
Let there be a little light

I know it's hard  
When it's so dark  
To think the world will ever notice you

But it's not dark  
In your heart  
Go on and see just what one light can do

Go ahead and shine on in the night  
You've gotta shine on  
Be a light  
You need to shine on  
How the world could use some light

Go ahead and shine on  
In the night  
You gotta shine on  
Be a light  
You gotta shine on  
Let there be a little light

Go ahead and shine on  
In the night  
You gotta shine on  
Be a light  
You need to shine on  
How the world could use some light

Go ahead and shine on  
In the night  
You gotta shine on  
Be a light  
You gotta shine on  
Let there be a little light
