

# The Word Is Love

B.J. Thomas

Lost and feeling lonely  
Had become ordinary  
I was always glad to see a day go by  
The darkness just got deeper  
The mountains just got steeper  
But when I heard the Word it changed my life

The Word is love  
The Word is love  
It gently touched my heart and changed my life  
The Word is love  
The Word is love  
And I could never thank You enough

Loved and feeling worth it  
'Cause You say I deserve it  
I want to share this happiness I've found  
You're the song I'm singing  
You give my life meaning  
That's why I want to spread the Word around

The Word is love  
The Word is love  
It gently touched my heart and changed my life  
The Word is love  
The Word is love  
And I could never thank You enough

The Word is love  
The Word is love  
It gently touched my heart and changed my life  
The Word is love  
The Word is love  
And I could never thank You enough
