   I want for-ever you just want to-day
    A           D       E           D
   Give me your fingers wash out your mouth
    A           D           E       D
   Bite off my tongue on this bloody couch

     A          D       E           D
R1: But I don't blame you you're always right

2. I hear the tick of a bomb-ah all you hair in a fuse
   You asked me for a light to blow away these blues
   Run me a bath then plug me in
   I'm like a TV learning to swim

R1: But I don't blame you...
