

# Woncha Take Me for a While

Bachman-Turner Overdrive

Something in the way she smiles that melted my heart  
And that old familiar feeling started haunting me  
There was something in the way she cried and I fell apart  
So I reached out to touch her  
She was meant for me, then she said

Woncha take me for a while  
Woncha take me for a while  
Need someone, need someone  
To make me smile  
(Lord ya know I'm going to need it)  
Woncha take me for a while

Sunshine fades and so did I, outside in the rain  
I needed someone to carry on and really care  
My summer came with deep blue skies  
When we met again and I reached out to feel her  
Sitting next to me and she said

Woncha take me for a while  
Woncha take me for a while  
Need someone, need someone  
To make me smile  
(Yeah you know I do) 2nd time  
Woncha take me for a while

Woncha take me for a while  
Woncha take me for a while  
Need someone, need someone  
To make me smile  
(Lord you know I need it)  
Woncha take me for a while

Woncha take me for a while  
Woncha take me for a while yeah  
Woncha take me for a while baby yeah  
Woncha take me for a while yeah yeah  
Woncha take me for a while ah  
Woncha take me for a while  
Need someone, need someone

To make me smile  
Lord ya know I need it now  
Woncha take me for a while

Baby baby baby  
Woncha take me for a while ah  
Woncha take me for a while  
I need someone, I need someone

To make me smile  
You know I need it now  
Woncha take me me for a while
