

# I'm on My Way to Save Your Rock 'N' Roll

Backyard Babies

I gotta get this out of my head  
I don't believe it's already dead

'Cause everytime I turn around and look the other way  
There are a thousand million reasons  
Should I go or should I stay?  
And when you went behind my back  
I found you left a fuckin' mess for me  
To care about

Wake me when tomorrow's gone  
I'm on my way to save your rock'n'...  
Take me down your favourite song  
I'm on my way to save your rock'n'roll!

You're feeding me with future plans  
But this is not my promised land

'Cause everytime I turn around and look the other way  
There are a thousand million reasons  
Should I go or should I stay?  
And when you went behind my back  
I found you left a fuckin' mess for me  
To care about

Wake me when tomorrow's gone  
I'm on my way to save your rock'n'...  
Take me down your favourite song  
I'm on my way to save your rock'n'roll!

'Cause everytime I turn around and look the other way  
There are a thousand million reasons  
Should I go or should I stay?  
And when you went behind my back  
I found you left a fuckin' mess for me  
To care about

You scream and shout  
I don't care

Wake me when tomorrow's gone  
I'm on my way to save your rock'n'...  
Take me down your favourite song  
I'm on my way to save your rock'n'roll!  
I'm on my way to save your rock'n'roll!  
I'm on my way to save your rock'n'roll!
