

# You Take Me To The Light

Bad Boys Blue

You take me to the light. You take me to the light.

When I met you in the sun. I fell in love with you.  
But now it's dark. I'm on the run.  
You broke my heart in two  
Oh but I need you.  
I need you all the time.  
Oh, how I need you to be mine.

Ohohoh, you take me to the light. And I believe in love.  
When you are by my side. I know it's getting better.  
Come take me to the light. And I believe in love.  
When you are by my side.  
Ohohoh.

Did you ever feel the same. Why don't you take my hand?  
You left me standing in the rain. But I don't understand.  
Oh but I need you.  
I need you all the time.  
Oh, how I need you to be mine.

Ohohoh, you take me to the light. And I believe in love.  
When you are by my side. I know it's getting better.  
Come take me to the light. And I believe in love.  
When you are by my side.  
Ohohoh.
