## **God Song**

## **Bad Religion**

And did those feet in ancient times trod on america's pastuers of green? and did that anthropocentric god wane with their thought s and beliefs all unseen? i don't think so, he's up there with the ot hers laying low, vying with those who you've traded your life to to bless your soul, and have they told you how to think, cleansed your m ind of sepsis and automony? or have you escaped scrutiny, and regaled yourself with depravity? now we all see, "religion is just synt hetic frippery, unnecessary in our expanding global cultural efficien cy" and don't you fear this impasse we have built to our future? ever s o near, and oh so austere
