

Love by Mistake

Bad Suns

Summer breeze
Dancing trees by the lake
Telling me about your latest heartache
With sudden ease
We laugh it off, as it begins to rain
I feel it

I fell in love by mistake
I fell in love like the rain
Tonight's not over
Come over and stay

Back to earth
Back to work I detest
Strike a match
Light a fire in my chest
Spill your guts
Whatever happened
Here's what happens next
I feel it

I fell in love by mistake
I fell in love like the rain
Tonight's not over
Come over and stay

We've got mountains to climb
The roads will wind
Celestial bodies in orbit
We're just out of our minds
We still have time
I say let's move forward
The forecast says it won't last

I fell in love by mistake
I fell in love like the rain
Tonight's not over
Come over and stay
I feel it

I fell in love by mistake
I fell in love like the rain
Tonight's not over
Come over and stay
