

Better the Devil

Bad Wolves

Gone, separate me from this loss I've known
Tolerate these stitches I have sewn
(We bare scars of our lives
A love affair as sharp as a knife)
I only cut myself to feel like I'm alive
(To feel like I'm alive)

Better than the devil that you said it
But you never want to give a credit, dead it
Better to the devil you'd forget it
What you didn't know ya going regret it
Better than the devil that you said it
But you never want to give a credit, dead it
Better to the devil you'd forget it
What you didn't know ya going regret it

Lost, desperately we're searching for a cause
Warriors, rebels without a cause
(We bare scars of our lives
A love affair as sharp as a knife)
I only cut myself to feel like I'm alive
(To feel like I'm alive)

Better than the devil that you said it
But you never want to give a credit, dead it
Better to the devil you'd forget it
What you didn't know ya going regret it
Better than the devil that you said it
But you never want to give a credit, dead it
Better to the devil you'd forget it
What you didn't know ya going regret it

Ending in vain
Occupied suicide all our lives
End in vain
Occupied suicide all our lives
End in vain
Occupied suicide all our lives
End in vain

Better than the devil that you said it
But you never want to give a credit, dead it
Better to the devil you'd forget it
What you didn't know ya going regret it
Better than the devil that you said it
But you never want to give a credit, dead it
Better to the devil you'd forget it
What you didn't know ya going regret it

You're going to regret this
