

Learn to Walk Again

Bad Wolves

They say I'm radical
I'm like a cannibal
I dropped a bomb into a psalm
And it's infallible
I'm like an animal
We're incompatible
I walked through hell and lived to tell
The tale's incredible

I got in too deep
So I came clean

I had to fall to learn to walk again
I had to crawl to learn that I could stand
Learn to walk again

My health was critical
And it was visible
Another line another crime
Yeah, I was pitiful
You think you're cynical
You lose your principles
Until I died and was revived
I felt invincible

I got in too deep
So I hit my knees

I had to fall to learn to walk again
I had to crawl to learn that I could stand
They told me don't look down
Don't be the victim
Don't you run away

I had to fall to learn to walk again
Learn to walk again

If the road we take is make or break
We'll ride or die
(Ride or die)
If the road we take is make or break
We'll be alright

I had to fall to learn to walk again
I had to crawl to learn that I could stand
They told me don't look down
Don't be the victim
Don't you run away

I had to fall to learn to walk again
Learn to walk again
Learn to walk again
