

# Knocking Down Our Home

**Badfinger**

Your heart is in your home they say  
Your home's where you belong  
But someone stole my heart today  
So listen to my song...

I heard the news today  
They're going to move us far away  
Seems that our home must go  
They're going to build a motorway

It isn't fair, nobody cares  
They're knocking down our home  
Ruining all we own  
They're knocking down our home  
Please help us  
Don't let them take our home

Ma's cooking at the stove  
Where she's cooked for thirty years  
Ten thousand meals she's cooked  
But now her eyes are filled with tears

It isn't fair, nobody cares  
They're knocking down our home  
Ruining all we own
