Bahamas

Loosen your mind,
Open back up to me.
We would be fine,
If this were not up to me.

What can I do?
What can I do for you?
I'll do all that I can,
All that you'll let me do.

Never again, never again will I let you go. Never again, never again will I let you go.

You turned around,
You turned around on me.
You changed your mind,
For something you found in me.

Never again, never again will I let you go. Never again, never again will I let you go.

Never again, never again, Never again, never again.
