

The Friend Zone

Ballyhoo!

We've been hanging out a lot
I wonder if it's on or if it's not
The tension is wrenchin'
So, should I mention
That I feel a connection?
And will I ever get some attention from you?

I think I'm starting to like you
And all of the things that you do
And if you think you like me too
Let's stop wasting time, show me a sign

It's been a few weeks
And I thought it was just a phase
I thought I was grown up out of these lusty ways
So glad that I found you
Love to be around you
But we can't be lovers
Because you want another
Just a nice guy finishing it up in last place
