

# Every Shade of Blue

**Bananarama**

I have the saddest feeling  
Deep inside  
Don't think that I will hear from you  
Tonight

Now the moon lights up  
I know the stars will shine  
But I can't escape  
The way I feel inside

(Chorus)

Every shade of blue I see  
When you're away from me  
Thinking about you oh oh thinking about you  
Every shade of blue I cry  
'Til the colours all run dry  
When I'm without you oh oh when I'm without you

Alone in the darkness  
I can dream of you  
But always the daylight  
Comes around too soon  
And the night goes on  
Feels like it never ends  
I keep holding on'  
'Til you come back again

(Chorus)

And the night goes on  
Feels like it never ends  
I keep holding on'  
Til you come back again

(Chorus)
