Sleep

Bananarama

My lover, my angel Each time you layed with me Falling from your lips With each kiss You're betraying me

Don't tell me you made me You played me for a fool Lies come tumbling down now Like a waterfall Over me

Like a heaven without the stars, yeah I don't know why you broke my heart

Just send me to sleep
I just wanna dream
Don't wanna believe
This is happening to me
Just send me to sleep
For eternity
Yeah
'Cause I don't wanna be here alone
No

So silent, so sweetly You played your game with me Slowly suffocating Love was fading

I couldn't breathe

Beloved
Unfaithfull
No words are left to speak
Crossed unholy water
You can't alter
Your fate, yeah

Summer kisses fade away, yeah I'm left standing in the rain

Just send me to sleep
I just wanna dream
Don't wanna believe
This is happening to me
Just send me to sleep
For eternity
Yeah
'Cause I don't wanna be here alone
No

Just send me to sleep I just wanna dream Don't wanna believe This is happening to me Just send me to sleep For eternity
Yeah
'Cause I don't wanna be here alone
No

Just send me to sleep
I just wanna dream
Don't wanna believe
This is happening to me
Just send me to sleep
For eternity
Yeah
'Cause I don't wanna be here alone
No
