

Only Love

Banaroo

I had a dream, does it mean In your eyes are no lies Believing
in you and me There's too much blue missing you, See the sign d
own the line And fight for the victory

Only love can really break your heart Hold me tight For tonight
Angels sing when the heavens cry

Don't be a fool, break the rule Take a chance for romance And c
ome to the promised land I pray for you, that it's true Cause y
ou're mine, take your time To cherish and understand

Only love can really break your heart Hold me tight For tonight
Angels sing when the heavens cry

The day has gone, we're alone Don't know where, just be there T
ogether we fly away I pray for you, that it's true Promised lan
d, take my hand We start in a brand new day
