

# Don't Need Nobody

**Bang**

Pushed around, up and down, we started to lose our way  
Wanting one thing, then made to do another  
Oh! Lord there's gotta be a better way  
We don't need nobody to tell us what we want  
Cause now we know, yes we know

Miles and miles, always on the go  
We played to all the waiting ears  
Did our trip the best way we knew how, and conquered all our fears

We don't need nobody to tell us what we want  
Cause now we know, yes we know  
People thought we were too young to know our minds  
Thought they knew, think they know!  
But now we're gonna show them the best way we know how  
So here we go, here we go
