

# Crash and Burn

The Bangles

L.A. to Reno  
Checking out the scene-o  
Feeling so mean-o  
Sometimes I wish I could crash and burn

Winding through the hot night  
Without my headlights  
20/20 hindsight  
Sometimes I wish I could crash and burn

Crash and burn  
And I never ever felt so lonely  
Crash and burn  
Can't look them in the eye  
Just want to drive and drive and drive

Going nowhere  
And I don't care  
Can't wait 'til I get there  
Sometimes I wish I could crash and burn

Fifty, sixty, seventy, eighty, ninety  
Gotta be a place where they can't find me  
Watching all those bridges burn behind me

And if I can't see  
What's passing me  
Nothing's gonna touch me and I'll fly  
I wish I could crash and burn

On my Philco  
I hear an echo  
There was a wreck-o yesterday  
And by tomorrow  
They'll clear the char-o  
And wash the tar and trouble away

I wish I would  
I wish I could  
I wish I would
