

# Life Is For Living

Barclay James Harvest

You and me, our life is driftin' along  
Watchin' the world as it's singin' its song  
High above, someone is callin' to me  
Life is for livin' and livin' is free

You to me, are like the sun in the sky  
See how you fly, you have wings of your own  
You and me, our love will last without end  
Ride with the wind, won't you follow me home?

Turn around and see the circles we spin  
And we're takin' our chances on where we begin  
Up above, the rain is fallin' on me  
Life is for livin' and livin' is free

You to me, are like the sun in the sky  
See how you fly, you have wings of your own  
You and me, our love will last without end  
Ride with the wind, won't you follow me home?

Takin' up time tryin' to write a line till the break of day  
Given a sign, can you make it rhyme, tell me what to say?  
Makin' it fine, can you ease my mind, help me drift away?

Turn around and see the circles we spin  
Takin' our chances on where we begin  
Up above, the rain is fallin' on me  
Life is for livin' and livin' is free

You to me, are like the sun in the sky  
See how you fly, you have wings of your own  
You and me, our love will last without end  
Ride with the wind, won't you follow me home
