

# Play To The World

Barclay James Harvest

**Am**                      **G**  
You can make the day seem right  
                         **Dm**  
And make the darkness bright  
                         **G**  
That's what you do

**Am**                      **G**  
Girl, don't hide your love away  
                         **Dm**  
You'll want it back some day  
                         **G**  
That's what they say

**G**              **C**  
And, my friend  
**G**              **C**  
We're gonna make it right  
         **F**                      **C**  
And play to the world tonight  
         **Dm**  
We'll play to the world

**Am**                      **G**  
Time, what's to become of me?  
                         **Dm**  
What will the future see?  
                         **G**  
What will they say?

**Am**                      **G**  
Life is like a passing dream  
                         **Dm**  
It's never what it seems to be  
                         **G**  
From day to day

**G**              **C**  
And, my friend  
**G**              **C**  
We're gonna make it right  
         **F**                      **C**  
And play to the world tonight  
         **Dm**  
We'll play to the world
