

## Angry People

## Barenaked Ladies

That's the problem, dear, with angry people  
They try to go it alone  
Digging in and making cranky feeble pleas  
That other angries disown  
Angry people think a good solution  
Is getting others involved  
So they surround themselves with happy people  
And watch their smiles dissolve

We just drag them down  
We just drag them down  
We just drag them down  
Until they're just like us

Angry people get so sanctimonious  
Telling us what to do  
Hoping no one outs them all as phonies just cause  
We are all phonies too  
And those of us who once had wives and families  
Understand what I mean  
What was once a calm and peaceful refuge  
Is overtaken by spleen

'Cause we just drag them down  
We just drag them down  
We just drag them down  
Until they're just like us

I am the singer in the band  
We're only trying to lend a hand  
And though it's not what we had planned  
We understand

That we just drag you down  
We just drag you down  
We just drag you down  
Until you're just like us

In a square a thousand angry people  
Are waving signs in the air (HEY!)  
While a million other happy people  
Are trying hard not to care (BACK OFF!)  
You see, the happy people's biggest problem  
Is they're never fearing the worst  
While the rest of us will never sleep until  
Your happy bubbles are burst

Yeah, we just drag them down  
Didn't I just drag you down  
Just watch me drag you down  
Until you're just like us  
Until you're just like us  
Oh, until you're just like us  
Until you're just like us
