

## Humungous Tree

Barenaked Ladies

I'm gonna plant this seed, this little tiny seed,  
and it is gonna grow into a giant tree.  
A gigantic tree. A ginormous tree.  
A humungous tree for all the world to see.

You've gotta love the trees,  
they even help us breathe.  
They give us oxygen.  
They give us scenery.  
When I see a healthy trunk it makes me want to jump.  
But I feel the opposite when I see a stump.

Help me plant this seed, this little tiny seed.  
And let us watch it grow into a giant tree.  
One gigantic tree here for you and me.  
For our children's children's children's children's children to  
see.
