

## Maybe Katie

## Barenaked Ladies

What's so maybe about  
What's so maybe about  
What's so maybe about Katie?

What's the use in hesitating?  
Can't you see that Katie's waiting?  
Just because her youth is fading  
Doesn't mean she's not worth dating.

What's so maybe about  
What's so maybe about  
What's so maybe about Katie?

I don't know  
What the fuss is all about  
Just take it slow  
It's not like you can't live without her  
To and fro if you've got a shred of doubt  
Then it's not worth it

What's so maybe about  
What's so maybe about  
What's so maybe about Katie?

Can't you see her with her arms wide open?  
She's everything that you've been hoping for  
Forever's not so long, stop moping  
She's got a daughter and you're just not coping

Do you know everyone you ever swore you'd love for life?  
I don't know them anymore  
I know their names, I'd recognize them on the street  
And I don't love them

What's so maybe about  
What's so maybe about  
What's so maybe about Katie?
