

## Summertime

## Barenaked Ladies

Saving it up  
Savoring every ounce of sunlight  
What comes to be, gradually  
Feels like overnight

So, bundle up  
And hunker down  
See you on the other side  
Mercury falls so

How, how do we make it through the days?  
How do we not cave in, and bottom out?  
Well, you have to understand that  
Soon enough we'll wake up from such a daze,  
thanks to all the many ways  
We're all pushing through, for Summertime

We cover it up, we bottle it in,  
But that won't make it feel right  
Toppin' it off, rubbing it in  
There's always a big mess of white

So, bundle up  
And hunker down  
Here it comes again  
Just one more round  
See you on the other side  
Mercury falls so

How, how do we make it through the days?  
How do we not cave in, and bottom out?  
Well, you have to understand that  
Soon enough we'll wake up from such a daze,  
thanks to all the many ways  
We're all pushing through, for Summertime  
Our love pushing through, for Summertime

How, how do we make it through the days?  
How do we not cave in, and bottom out?  
Well, you have to understand that  
Soon enough we'll wake up from such a daze,  
thanks to all the many ways  
We're all pushing through, for Summertime
