Even if I let this settle, it'll lead to a little fight
Even when I get to meddlin' I need to remain polite
I could cut across this field but it hits pretty close to home
Maybe if I jiggle it a little it'll open up on its own

```
Oh well, what a let down Oh well, what a let down
```

Never has a stranger had a better taste of another town Just time for a cowboy breakfast, that's a leak and a look around

Looks like the land of plenty, there will be plenty there to do That might've been funny at 20, but I just turned 32

```
Oh well, what a let down Oh well, what a let down Oh well, what a let down Oh well, what a let down
```

Let down your guard Moving forward Finally four words What a let down What a let down

Even if I let this settle, it'll lead to a little fight
Even when I get to meddlin' I need to remember to remain polite
I could cut across this field but it hits pretty close to home
Maybe if I jiggle it a little it'll open up on its own

```
Oh well, what a let down Oh well, what a let down Oh well, what a let down Oh well, what a let down
```

What a let down
Oh well, what a let down
Oh well, what a let down
What a let down
