

Love Is Good With You

Barry White

We know we can't see the future
But this time baby, it's for real, the real deal
It don't get no better
You are always on my mind

I'm gonna do this right i know i can
I do appreciate you, and i understand
We wnat the same thing in this relationship

We won't play love games
We won't trip

Love is baby, love is good with you
And so is what i'm feeling too
When we start touching, babe
Something happens inside of me
It's like no other feeling
So intensified the way love should be
