

Of All the Guys in the World

Barry White

All the guys in the world
Of all the guys in the world
You give your love to only me girl
Any man would love to love you

From beggars to kings
And I know they would love to hold you
And please you and need you the way I do
Of all the guys in the world
You give your love to only me girl
Of all the guys in the world

You give your love to only me
If I live 100 years and I'm old and grey
You can bet girl
I won't let a day go by
You won't hear me say
All the guys in the world
Oh baby

All the guys in the world
You give your love to only me
All the guys in the world
You give your love to only me
All the guys in the world
