

# Always Be There

Basement Jaxx

Feed me hungry, feed me cold  
When lines run deep and when I'm old  
Will you be there for me?

Will you always be there?  
Will you always be there?

Fear of loneliness on a lonely planet  
Fear of havin' it all then not to have it there  
Feed me with affection everyday, oh

Will you always be there?  
Will you always be there? Oh

Feed me hungry, feed me cold  
When lines run deep and when I'm old  
Will you be there for me?

Will you always be there?  
Will you always be there?  
Will you always be there?  
Will you always be there?

Will you always be there?  
Will you always be there?  
Will you always be there?  
Will you always be there?

Bathed in the celestial bloom

Oh, will you always be there?  
Will you always be there?

Let's play with the stars  
This is our universe
