Never Say Never

Basement Jaxx

Oh, never mind, we tried We loved We conquered, I won't forget The taste Oh, no I'll never say never again I'll never say never I'll never say never again I'll never say never I'll never say never again The music brings me right back And you know that And you know that I got the answers in me Tell me, tell me, tell me Like a vision of love You came, you stood You blew right through me I have no regrets The tears, the hopes I'll never say never again I'll never say never I'll never say never again I'll never say never I'll never say never again The music brings me right back And you know that And you know that I got the answers in me Tell me, tell me, tell me Oh, sing my love Oh, sing my love Oh, sweet my love Oh, sweet my love We've all just gotta be 'Cause answers rarely come easily We've all just gotta be Then finally, finally we're free I'll never say never I'll never say never again Oh, sing my love The music brings me right back And you know that And you know that I got the answers in me

Tell me, tell me, tell me

It's like I hear an angel calling The music
