

Rock This Road

Basement Jaxx

Can't see the pain
But feel it cause it hurts
Hope it gets better
Will you be my nurse?

There's no heart broken
That your love can't fix
Oh please fix me
Before the silence hits

You make me feel so good
You're my pure delight
You lift me up in the galaxy
You're my triangle of light

You lift me up in the galaxy
(You lift me up in the galaxy)
You lift me up in the galaxy
(You lift me up in the galaxy)
You lift me up in the galaxy
(You lift me up in the galaxy)

Let's rock this road together
I'll make it good for you boo
Let's rock this road together
Is there something I can do
For save me from myself
I'll make it good for you boo
Let's rock this road together
Are you feeling it too

You make me feel so good
(You make me feel much better)
You're my pure delight
(You're my pure delight)
You lift me up in the galaxy
(I'm on cloud nine, cloud nine)
You're my triangle of light

You lift me up in the galaxy
(You lift me up in the galaxy)
You lift me up in the galaxy
(You lift me up in the galaxy)
You lift me up in the galaxy
(You lift me up in the galaxy)

Let's rock this road together
I'll make it good for you boo
Let's rock this road together

Is there something I can do
For save me from myself
I'll make it good for you boo
Let's rock this road together
Are you feeling it too

You lift me up in the galaxy
