On and on
On and on
On and on
On and on
Are you ready for me?
Are you ready for me?

Uh-oh
Hello
Do you see what I see yo?
Hot spice at ten o'clock
Don't look now
Don't beat me up
Because my mind equals lonely
He's sweet like honeycomb
He's so delish
I bet he could kiss
Kiss me all up in my zone

You're plainest thing I see
I swear damn you're the truth
I wanna take you home with me
And put your body to use
It's a mad thing how I feel
And I ain't even waved
All I wanna do with you is play

Because you know it when it feels so right
When our bodies move together
And our souls unite
I want your love
Tonight
You got me feeling so good
You got me feeling so right
You got me sayin'

I swear I swear
You and me we can have some fun
All night long
All night long

I swear I swear
You and me we can have some fun
All night long
All night

You caught my eye
I can't lie
You're definitely my type
Big and tall just how I like
This might be your lucky night
I want your lips on my skin
I want you to make me sing
Because I'm hot for you
And what I got for you
See, you could be my king

You're plainest thing I see
I swear damn you're the truth
I wanna take you home with me
And put your body to use
It's a mad thing how I feel
And I ain't even waved
All I wanna do with you is play

Because you know it when it feels so right
When our bodies move together
And our souls unite
I want your love
Tonight
You got me feeling so good
You got me feeling so right
You got me sayin'

I swear I swear
You and me we can have some fun
All night long
All night long

I swear I swear
You and me we can have some fun
All night long
All night

I want you
I need you
Whatever I got
Let me see you get your body up
Show me what you got

Let me see you get your body up
Show me how low that you can drop down

Because you know it when it feels so right
When our bodies move together
And our souls unite
I want your love
Tonight
You got me feeling so good
You got me feeling so right
You got me sayin'

I swear I swear
You and me we can have some fun
All night long
All night long

I want your love
Tonight
Because you got me so good
You got me feelin' so right
You got me sayin'
