

For You the Moon

Basement

Near
Far
I will stay where you are
I'm not thinking clearly ever
Skin was made for darker weather

Ask me and I'll try to reach for further sky
All I need for flight is a feeling from inside

Old
New
It remains so true
Maybe something I desire
Like the match to start the fire

Ask me and I'll try to reach for further sky
All I need for flight is a feeling from inside

Ask me and I'll try to reach for further sky
All I need for flight is a feeling from inside
