

# Baby You're Mine

Basia

Sitting there and feeling lonely  
Had my blue eyes for you only  
Suddenly you turned around and smiled at me

It wasn't my imagination  
Had no doubts no hesitation  
When it comes to love I know where I want to be

Is it real am I dreaming  
I've been waiting light years for someone like you  
Can't believe you are here with me  
I've got you and I can't hide it anymore  
I want the world to know that

Baby you're mine  
You are blowing my mind  
We are two of a kind  
Baby you're really mine

Now I see what I've been missing  
It's the happiest girl you're kissing  
Baby only you can make me feel like this
