

# Rule Your World

## Basic Element

Don't let them rule your world  
Don't let them rule your life  
Just let your feeling show the way

Don't let them rule your world  
Don't let them rule your life  
Just let your feeling show the way, yeah

All right  
This one is getting out to another out here  
You gotta find yourself and don't rely to another  
Chose yourself in the world  
You gotta trust your instinct  
Everybody floor right

You'd better be nice when you're angry  
Just let it all out,  
Just do what you want,  
You'd better be strong when you need it

Once again with the rhythm my love  
But do it it right it's what I'm thinking of  
... like a child tonight  
You confuse me amuse me allright

The way to control (is the way you wanna control)  
The way to control  
Is live and learn

Ready for cha-cha, when I come, when I come my soul  
All time I'm angry, I will come baby you're my goal  
I want to be ya  
But when I want you anger human race
