

The Bitch

Basic Element

Peter Thelenius:

You're just a damn old bitch

You're just a damn old bitch,
and I don't believe any word you say,
you can give your best shot, if you want it's OK,
Just watch your fame, but it's over now

You're just a damn old bitch,
and I don't believe any word you say,
you can give your best shot, if you want it's OK,
Just watch your fame, but it's over now

You're just a damn old bitch

You're just a damn old bitch

Andrea Myrander:

I'm a dangerous girl,
The one in my fantasy world
The one with the diamonds and pearls
That bitch that rock your world
I'm a dangerous girl,
The one in my fantasy world
The one with the diamonds and pearls
That bitch that rock your world
I'm a dangerous girl,
The one in my fantasy world
The one with the diamonds and pearls
