

## Nerve Jamming

### Bass Drum of Death

don't read my lips  
i click my heels and away we go  
still wonder why  
my little fears try to knock me down

no deadly diss? will be the least of my worrying  
can't pass her by  
im feeling wack but i think im dead

you stay in my brain  
wasting all my time  
cuz i stayed up all day  
you were working nights  
you stayed in my brain  
wasting all my time

time  
time  
time

the lesson isn't clear  
i run away and i lose my mind  
the whispers in my ear  
they say "come on baby, it's alright"

no deadly diss? will be the least of my worrying  
can't pass her by  
i'm feeling waack but i think i'm dead

you stay in my brain  
wasting all my time  
cuz i stayed up all day  
you were working nights  
you stayed in my brain  
wasting all my time

time  
time  
time

i need to rise up and do what you say  
i need to know honey  
i need to rise up and do what you say  
i need to know honey  
i need to rise up and do what you say  
i need to know honey  
i need to rise up and do what you say  
i need to rise up and do what you say  
aaaaaaooooiiiiiiiiiii
