

Desert Man

Bat for Lashes

Measuring the distance between you and I
Finding the location inside
You being alive while I'm a lie
Weathered in the dusty desert sky

It's hard to get it high with you
And I'll go alone, I've waited so long to
Take it slow, desert man, desert man
Love is a nowhere land, desert man, desert man

Love is a desert man
Man

Measuring the vastness of pastel blue
Measuring the sadness I see in you
You take me to that nowhere land
Pull me in with both your hands
And dusty love, it's all I can do
To understand

It's hard to get it high with you
And I'll go alone, I've waited so long to
So take it slow, desert man, desert man
Your love is a nowhere land, desert man, desert man
Your love is a nowhere land

It's hard to get it high with you
And I'll go alone, I've waited so long to
So take it slow, desert man, desert man
Love is a nowhere land, desert man, desert man
