Falling Up

BBMak

Gone the distance stood in line
Held my breath and done my time
A little voice in a crowded room
Do it now cos it's gone too soon

Go go go go
Take a chance it might save your life
Go go go go
It's never too late to try

Take a hand, got your back
Take your time, nothing left to lose
That's the truth
Don't look back, it's the past
Moving fast, before it's gone too soon

I keep falling up, I'm not coming down down down down down
And I keep falling up, I'm not coming down down down down down

Had my highs and been so low
Nowhere to hide no place called home
What's in the past can't bring me down
It's all about the here and now

Go go go go
Take a chance it might save your life
Go go go go
It's never too late to try

Take a hand, got your back
Take your time, nothing left to lose
That's the truth
Don't look back, it's the past
Moving fast, before it's gone too soon

I keep falling up (I can feel it, believe it)
I'm not coming down down down down down
And I keep falling up (I can see it, and breath it)
I'm not coming down down down down down

Life's a lesson don't look back
Count your blessings not your cash
Falling sand in an hour glass
Love each day like it's your last

Go go go go
Take a chance it might save your life
Go go go do
It's never too late to try

I keep falling up (I can feel it, believe it)
I'm not coming down down down down down
And I keep falling up (I can see it, and breath it)
I'm not coming down down down down down

I'm not falling down down down down
I'm not falling down down down down

```
I'm not falling down down down down
I'm not falling down, whoa

Life's a lesson, don't look back
```

```
I'm not falling down down down down
I'm not falling down, whoa

Life's a lesson, don't look back
```
