If you let me be a part of you
If you tell me what I gotta do
Maybe I could change
I don't wanna see another day
If I ever let you walk away from the love we have

And here I can't see why
I need her close to me
She's everything
Everything that I ever wanted here
Woh she's everything
And I don't wanna make believe

Never needed anyone before

Never knew you could give me more than I ever had

I don't wanna be afraid again

You're the one that saves me when I'm falling from you

And here I can't see why
I need her close to me
She's everything
Everything that I ever wanted here
Woh she's everything
And I don't wanna make believe

I'll never be what you make me
Take me now
Trying to find if there's a way to make you mine

She's everything Everything that I ever wanted here Woh she's everything And I don't wanna make believe She's everything
